

# Shimmer 3

## *Philosophy*

The use of Swarovski crystals creates textures and lines to the frame's arch, which makes the frame feel younger and more contemporary but still has a mature, dressed up look. The shape of this frame is incredibly flattering for all wearers. These frames present a modern way to construct metal, which allows a unique personality to dance between the lenses of this frame. Abnormal to metal frames, the piece encapsulates a bolder character.
